

SPECIFICATION SHEET

1.9 mil Polypropylene - Printed Tape - 6500 series

Hot melt adhesives satisfy over 90% of all carton-sealing requirements. Excellent corrugate adhesion and quick tack properties make hot melt tapes ideal for most applications while offering reduced packaging costs. Consistent release tension allows for optimal performance on case sealing machinery.

	Unit	Range	PP 6500 CLEAR	PP 6501 TAN	PP 6502 WHITE
Film Thickness	(mils)	(± 1.5%)	1.38	1.38	1.38
Total Thickness	(mils)	(± 1.5%)	1.90	1.90	1.90
Tensile Strength	(lbs/in)	(±3.3)	31	31	31
Elongation at Break	(%)	(±25)	185	185	185
Adhesion to steel	(oz/in)	(±10)	43	43	41
Loop-Tack	(oz/in)	(min.)	45	45	45
Holding Power to Fiberboard	(minutes)		2500	2500	2500
Service Temp.- minimum	(degrees F)		30°F	30°F	30°F
Service Temp.- maximum	(degrees F)		140°F	140°F	140°F
Application Temp. - minimum	(degrees F)		54°F	54°F	54°F
Application Temp. - maximum	(degrees F)		110°F	110°F	110°F
